HISTORY/FACTS/ISSUES:

Bradley Arnold drafted the attached letter to request the amendment to the interlocal agreement. Once the South West Florida Water Management District Governing Board approves the amended contract the deeds will transfer to Sumter County.

The County will be able to move forward with the trap and skeet range, ignoring the area designated for FMI until their contract expires and work directly with SWFWMD to expedite the shell removal via in-kind and/or cash in the amount of \$151,000 to allow the non-FMI area to be available in a shorter time frame for the development of the trap and skeet range. Sumter County is willing to enter into a side interlocal agreement associated with this partnership.
